

User Stories Project No.9

By Mariana Licona

1. Story for use case "Login"

As a student I want to login to the platform so that i can create my profile & edit my password.

As a volunteer I want to login to the platform so that I can create my profile & edit my password.

2. Story for use case "Dashboard"

As a student I want to navigate in the dashboard so that I can manage my tasks, consult my calendar and chat with my tutor.

3. Story for use case "Task Manager Student"

As a student I want to create a task for myself so that I can save it to remember what I have to do.

4. Story for use case "Task Manager Volunteer"

As a volunteer I want to create a task for the classmate I choose from a list, so that I can designate what for activities they have to work on.

5. Story for use case "Calendar"

As a User I want to use an online Calendar so that I can create, edit, delete and Filter my activities to be up to date.

6. Story for use case "Chat Interface Student Communication"

As a student I want to exchange chat messages with my mentor so that I can communicate with him/her to be up to date with my assignments.

7. Story for use case "Chat Interface Student Navigation"

As a student I want to navigate in the Chat Panel so that search stuff in my chat history, add and delete contacts in multiple conversations.

8. Story for use case "Chat Interface Volunteer Communication"

As a volunteer I want to exchange chat messages with my student so that I can communicate with him/her and to explain details, comments and provide guidance for his/her assignments.

9. Story for use case "Chat Interface Volunteer Navigation"

10. As a volunteer I want to navigate in the Chat Panel so that search information in my chat history, add and delete contacts in multiple conversations.
